The Company provides group hospital confinement indemnity benefits if an insured person is hospital confined and qualifies to receive benefits while insured under the group policy.

All exclusions and limitations are described in the certificate of coverage and riders.

The Company issues its hospital confinement indemnity insurance policies to eligible groups for group health insurance as allowed by Nevada law.

Premium rates are based on the following underwriting factors:

- Plan design;
- Plan demographics; and
- Analysis of previous claims experience.

Premium rates may be changed on any premium due date after the initial premium rate guarantee ends. Premium rates may also be changed at any time for reasons which affect the risk assumed, including but not limited to any of these:

- A change occurs in the policy design.
- The number of insured persons changes by 15% or more.
- A new law or a change in any existing law is enacted which applies to the policy. We will notify the Policyholder in writing at least 60 days before a premium rate is changed.

The group policy is conditionally renewable on an annual basis.
